Participants will not be permitted to wear trainers. Participants must ensure that they come dressed appropriately for the weather.

XCO 6 Timing and Numbers All competitors will be provided with a race number/bib containing their timing chip.

XCO 6.1 Race numbers/bibs must be secured to the front of a competitors clothing, below the chest and above the waist area. This must be secured on all four corners – any competitors without fully secured numbers/bibs may be prevented from competing.

XCO 6.1.1 In the instance a competitor completes the race, but a time is not registered due to an incorrectly worn race number/bib, it will be at the discretion of LYG and its timing supplier whether a result can be recorded. No external evidence will be considered.

XCO 6.2 Where a competitor competes with the incorrect race number/bib they may be subject to disqualification under the Games Rules.

XCO 6 Start Line and Routes The route for each age category and gender will be provided in advance of the day via the Race Pack. It is the responsibility of competitors/parents/team managers/local authority staff to familiarise themselves with this route.

XCO 6.1 Runners must assemble in the starting area 10 minutes prior to the advertised time of their race. There will not be any seeding, and competitors must listen to the start line marshals in terms of their positioning in this area/start line.

XCO 6.1.2 Runners must follow the directions of course marshals and course signage. Any runners who are deemed by the event referee to not have completed the course will be disqualified.

XCO 7 Scoring Overall borough results will be split by gender. All races will contribute to a borough's overall score for the event for each gender.

XCO 7.1 All 12 runners in each race will create a combined score for that race for a borough, the lowest score will be ranked first and the largest scores ranked last.

XCO 7.1.1 In the instance a borough does not have 12 competitors in a certain race, the positions of the competitor(s) will be added to the equivalent of the position that comes after the final competitor in that race. Examples below;

- A race has 120 competitors take part on the day; a borough has ten runners.
- These runners place 3rd, 6th, 17th, 20th, 33rd, 46th, 51st, 60th, 77th, 80th respectively.
- The borough score would be calculated as follows: $3+6+17+20+33+46+51+60+77+80+121+121 = 635$.
- If this borough only had five competitors who placed 3rd, 6th, 17th, 20th, 33rd, it would be calculated as follows: $3+6+17+20+33+121+121+121+121+121+121 = 926$.

XCO 7.1.2 In the instance of two or more boroughs accumulating a score that is equal, the borough with the highest placed finish will be awarded the higher ranking.
